

Green Valley RC Flyers Meeting Highlights

January 10, 2011

Field reports:

New county field: No new information. There is no money to develop it. We cannot work on it on our own. Ken Fleshman will continue to be our liaison with the county.

FICO: Nothing new to report.

Flattop: Is in good shape.

Canoa: The weeds have overgrown the area. Ken Fleshman suggested that we should salvage the fence and posts from the field after a rain. We need to consider where we could store the materials. Fred Radle suggested that we build an attic in the FICO storage shed (LOL).

Club officers: The slate of candidates for 2011 was announced. After Ron Simonds was “convinced” to run for Vice President, the slate was elected unanimously. The results are:

President: Gary Johnson
Vice-President: Ron Simonds
Secretary: Jerry Case
Treasurer: Ben Butters
Member at Large: Ted Dore
Safety Officer: Dave Risdon

Dues: Members began paying their 2011 dues and verifying their personal information for the club’s database. The new secretary/webmaster had developed a brilliant way to handle these activities.

Show & Tell:

Jim Heuer brought a framed-to-be-covered de Havilland Canada DHC-2 Beaver. He drew the plans from 3-view photographs on the Internet. The wingspan is 116”, the fuselage is 72 ½”, and it weighs about 25 lbs. The engine is a DA-50. The cowl measures 10” diameter. The frame is built from balsa and plywood. The covering will be Solartex.
