

## **Green Valley RC Flyers Meeting Highlights**

**June 13, 2011**

Meeting called to order at 7 PM by Gary Johnson, President; 19 members attended.

The club bank account as of the meeting had a balance of \$4,462.42, including \$3,000 in the capital fund.

Old Business:

Flying Fields: Nothing new to report.

Safety Issue: Nothing to report.

Father's Day Static Display: Plans were prepared for our participation in the June 19 display at the Sonora Development in Rancho Sahuarita. A reminder was sent out to club members.

Web site report: Jerry reported on changes to the web site, which included new photos, cleanup of the AMA page, instructions for getting to the static display, and a warning about Internet Explorer 9.

AMA News: Jerry reported on videos that were included in the June "AMA Today" email to members. The videos, that were taped at the Joe NALL Fly-In, presented the AMA's position and participation in the FAA's effort to create new regulations for small Unmanned Aircraft Systems.

Club T-shirts: Dave Risdon discussed his recreation of our club logo and a process to make iron-on graphics for our shirts. He prepared some member's shirts as samples for the Father's Day static display.

New Business:

Club member correspondence: Jerry read an email from John "Sodbuster" Brunsdale who is residing in North Dakota during this summer.

Bob Hamilton donated a SIG Kadet LT-40 ARF kit to the club for use as a trainer.

Show and Tell:

## **Green Valley RC Flyers Meeting Highlights**

Jerry Case showed the functions of the new Spektrum DX8 transmitter, receiver, and telemetry system by using a mockup system. He then compared the DX8 to the DX7.

Bob Orr brought his in-progress fuselage for his Balsa USA 1/3 scale "Super Cub". He had installed a twin-cylinder DA 100 engine and is planning on using Stits Poly Lite Fabric covering.

John Ferrara brought his in-progress Stearman 4E. It now has a factory made cowl to replace his home-made cowl that was oversized. So far he has installed the electronics, wire rigging anchors, DA 50 engine, wheels, metal skin and Stits fabric covering. He is waiting for delivery of a special switch/fuel dot panel.

The meeting was adjourned at 7:40 PM.
