

Green Valley RC Flyers Meeting Highlights

June 14, 2010

Treasurer's report: We have \$4,322.21 in the treasury, of which \$3,000 is reserved for the capital fund, and \$1,322.21 is for operations.

We talked about how to handle a medical emergency at the FICO field. When calling 911, we should tell the dispatcher that the field is located across the road from 18100 Old Nogales Highway. We also should have a club member drive out to the highway to direct the emergency vehicles to the field. Since the new Urgent Care facility in Sahuarita has no Emergency Room, patients still have to be transported to St. Mary's Hospital.

Continental School students: Jerry Stover is not going to continue with the student RC club. Dave Risdon, Dan Dyvig, and Jerry Case will continue the program for this November.

Show & Tell:

John Ferrara brought his "nearly always under-construction" Stearman 4E to which he added framed-out wings.

Gary Johnson showed his F4 Phantom prop jet, which was kitted by Great Planes in 1971. He will be flying it off paved runways due to its short legs. Ted Dore did the covering in Worldtex. It is powered with a .61 glow engine.

Ken Fleshman showed his ¼ scale Balsa USA Super Cub which he is kit-bashing into a Piper L4. He covered it with Super Coverite and Solartex. It will be powered with a Zenoah G26 gas engine.
